

Programme at-glance SAFIS-ALACF 2021 joint meeting. 20-22 October (virtual)

	Wednesday 20		Thursday 21		Friday 22
8:00-10:45	Interactive Educational Workshop: Hybrid Teaching. <i>Noelia Valle (Spain)</i>	8:00-9:30	S3 (YIC): "Jorge Negroni": Experimental Models for studying physiology	8:00-9:30	S7: Digestive system: an organism inside our organism.
11:00-12:30	S1 ALACF: ACE2 beyond Covid-19. What's new about the cardioprotective arm of RAAS?	9:45-11:15	S4: Two key moments to understand women pathophysiology: pregnancy and menopause.	9:45-11:15	S8: <i>Camili6n de Hurtado Award</i>
12:45-13:15	Opening. Mart6n Vila Petroff (SAFIS)- Luis Sobrevia (ALACF)	11:30-12:30	Debate in Science. <i>Diego Golombek (Argentina)</i> . The equilibrium between the science for the paper and the science for the press.	11:30-13:30	Scientific Poster Presentation
13:30-15:00	Poster Presentation: Education in Physiology	12:45-14:45	Scientific Poster Presentation	13:45-14:30	Conference SAFIS. <i>Qinchuan Wang (EEUU)</i> . "Evolutionary Physiology: oxidation of CaMKII a treaty between God and the devil".
15:30-17:00	Workshop (YIC). Professional development and Laboral continuity.	15:00-16:30	S5: Calcium signaling: impact in the physiopathology of tissues and cells.	14:45-16:15	S9 SAFIS-ALACF: Physiopathology and Covid-19 in Latino America.
17:15-18:45	S2: Metabolism, trafficking and cellular signaling: focusing on cellular physiology.	16:45-18:15	S6: <i>SAFIS Young Investigator Award</i>	16:30-17:15	Closing Conference SAFIS: <i>Gabriel Rabinovich (Argentina)</i> . "Glycans and galectins: new therapeutic targets in cancer, autoimmunity and infections".
19:00-19:50	Opening Conference SAFIS: <i>Jack Feldman (EEUU)</i> . "Breathing Matters: preBotzinger Complex and beyond"	18:30-19:20	Mini ALACF Conferences. News in high altitude physiology	17:30-19:00	S10 ALACF: Obesity: a systemic disease
		19:40	ALACF Assembly	19:15-20:00	Closing ceremony
Saturday 23 09:00: SAFIS Assembly
